My favourite hunting area is in SA and that by far, would be Klaserie Private Nature Reserve and then, I just got to know an area that I also really enjoy to spend time in, it's called the Maseke Game Reserve.

My favourite big game rifle is my personal back up rifle. It's a Krieghoff .500 Nitro Express. My favourite plains game rifle is a .300 Win Mag. For a client's rifle a .375 H&H would be my first choice, but it all comes down to what the client can shoot comfortably.

I was introduced to hunting by my Dad at a very young age and just could not keep away from it, in school holidays I used to go hunting with my Dad and his clients, freezing my butt off on the back of the vehicle on the way to the hunting concession early in the mornings. I suffered through the cold, just to be part of the safari.

I also had the opportunity to meet someone very early in my life and he almost had as much influence in where I am today as my Dad, he is definitely a guy that I still look up to and respect very much and it's Peter Flack.
